Summer Trainings

Summer Trainings are important aspect for professional development of student. Trainings enable the student to integrate theory and practical simultaneously, sequentially and cumulatively inculcating the development of professional competence among them.

OBJECTIVES OF TRAINING

Training is an integral component of Education. It is the practical aspect of the profession. Work incorporates Field Work as an essential component, designed to train students to meet the following:

1. Gain knowledge, attitude and skills for intervention at the levels of individuals, families,
2. Develop a professional identity and commitment consistent with work values and groups, communities, organizations and other social systems ethics etc
3. To build up/train a group of entrepreneurs/trainees in food processing sector including managerial aspects.
4. To train entrepreneurs in marketing of products, export as well as quality control.
5. To promote personal transformation through observation and data collection
6. To enhance leadership qualities and harness the skills of youth.
7. To provide opportunities for students to explore themselves and become agents of corporate world.

Skills to be acquired after internships in students:

1. Organizing & Participatory skills
2. Observation & Interactive skills
3. Listening & comprehending skills
4. Analytical skills
5. Interpersonal skills and Documentation skills
6. interviewing
7. problem identification & solving

Viva –Voce

As per UGC norms, students pursuing B.voc (FPQM) are required to undergo summer training in the end of semester 2nd, 4th and 6th for period of 4-6 weeks in a relevant food industries, food testing laboratories and national organizations. Moreover, prepare a proper training record at completion of training by training Report. But due to pandemic issue, Industries did not allow or permit trainings, internships, visits to students (2020-2021).

The basic aim of this training is to provide students an opportunity to gain real life skills and to develop a proper corporate identity. Besides this, also provides an opportunity to develop their communication skill and enhance leadership quality among them.

B.VOC FPQM (2020-2021)
